Purpose of Contact:

Review Kaiser Hill Readiness Assessment findings and resolution of pre-start and post-start findings.

Discussion regarding characterization and demolition of the weather shelter north of B886.

Discussion:

Jill Bruse presented the Readiness Assessment findings and resolutions to pre-start and post start findings. Ed and Mark were satisfied with the assessment and resolution of the findings.

John Whiting presented the radiological survey results and the Property Release Evaluation for the weather shelter north of B886. The survey results indicated no radiological contamination. John explained that the weather shelter is being demolished because it has been determined to be a safety hazard due to structural instability. Based on a review of the radiological survey results, Ed and Mark approved demolition of the structure.
